

# GUANTE **G-40 PU**

## Descripción:

Los guantes de protección KLEENGUARD® G40 recubiertos con Poliuretano +, son los guantes de protección industrial de uso general ideales para proteger a las personas de los procesos, con un excelente nivel de agarre, destreza y comodidad.

**KLEENGUARD™**

## Características:

- El guante está fabricado de un tejido de punto de nylon negro sin costuras, que provee comodidad, mejor ajuste, mayor destreza y respirabilidad al usuario, además de ocultar la suciedad y las manchas. Esto se traduce en una mayor productividad y durabilidad para el usuario cuando se le compara con otros guantes de protección general, tales como el cuero y la carnaza.
- Las costuras en la punta de los dedos son parte de las razones por las cuales, otros guantes de protección proveen menor destreza y comodidad al usuario.
- El guante tiene un recubrimiento de poliuretano, que provee una capa con buena resistencia a la abrasión y rasgado, protección contra líquidos, agarre en seco-húmedo y durabilidad.
- El recubrimiento ofrece la misma sensibilidad táctil de un guante delgado, pero con la protección de un guante recubierto.
- Estos guantes no deben ser usados en trabajos en los que haya peligro de enredarse en partes de maquinaria en movimiento.

## Aplicaciones:

- Ensamblaje de Precisión.
- Manejo de Paneles de Control.
- Pantallas Táctiles.
- Ensamblajes Electrónicos.
- Embalaje e Inspección.

## Certificaciones:

- El estándar Europeo EN 420: 2003
- El Estándar Europeo EN 388:2016
- Certificación IRAM

Ni el vendedor ni el fabricante serán responsables de cualquier lesión personal, pérdida o daños ya sean directos o consecuentes del mal uso de este producto. Antes de ser usado, se debe determinar si el producto es apropiado para el uso pretendido.

# TERMS AND CONDITIONS

The following conditions apply in addition to SATRA's standard terms and conditions of business and those given in the current certification agreement.

The certificate holder is licensed to mark the products detailed within this certificate in accordance with Annex V (Module B) of the Regulation (EU) 2016/425 of the European Parliament and of the council of 9th March 2016 on personal protective equipment once you have drawn up an EU declaration of product conformity. Please note:

1. Where the product is classified as category III then CE Marking of production is reliant on current compliance with Regulation 2016/425 module C2 or Module D. (Except that specifically produced to fit an individual user).
2. Full details of the certification and product are contained within the manufacturer's technical documentation.
3. Where a translation of this certificate exists, the English language version shall be considered as the authoritative text.
4. Certification is limited to production undertaken at the sites listed in the manufacturers technical documentation.
5. Ongoing manufactured product shall be consistent with the product(s) certified and listed on this certificate.
6. The Manufacturer shall inform SATRA of any changes to the certified product or technical documentation.
7. This certificate shall be kept together with the relevant technical documentation in a safe place by the client named on this certificate. Production of this certificate and other documentation may be required by a representative of the EC member state government.
8. This certificate relates only to the condition of the testable items at the time of the certification procedure and is subject to the expiry date shown.
9. SATRA Technology reserves the right to withdraw this certificate if it is found that a condition of manufacture, design, materials or packaging have been changed and therefore no longer comply with the requirements of Regulation 2016/425.
